

**Notice of Renewal
Land Application Sample Letter**

Notification requirements are found in Sec. 11709 (2)(a -d) of Part 117

Date

Name
Address

Dear _____:

My company is in the business of pumping and servicing septic tanks. As a part of that business, the waste must be disposed of in an environmentally safe manner once it has been removed from the septic tank. I am required by law to renew my septage waste license and land application permit every 5 years and this notification is required by Section 11709 of Part 117, Septage Waste Servicers, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended (Part 117). Please note that this site was previously authorized by the Michigan Department of Environmental Quality (MDEQ). Additional information about this site and my business can be found on the MDEQ Septage Program website at www.michigan.gov/deqseptage and then click on the Septage Haulers Directory under Online Services.

My method of disposal involves the recycling of septage waste by uniform application and incorporation into the soil with subsequent planting and harvest of crops. These requirements ensure pathogen reduction, vector attraction reduction, and nutrient utilization.

I am also attaching the following information to you as required by Part 117:

- A map identifying the site from a county land atlas and plat book.
- The site location by latitude and longitude.
- The name and address of the land owner.
- The name and address of the manager of the land, if different than the owner.

The requirements of the law are designed to protect the environment and the public's health, and my company fully intends to comply with those requirements. There may be conditions, however, which we are not aware of that could prevent the use of the site. Please forward any comments in writing directly to me and to the DEQ at the following address:

Michigan Department of Environmental Quality
Water Bureau – DWEHS - OSWU
